## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 13-16, drawn to a method for differential diagnosis of autoimmune disease of the GSE-type or associated with gluten sensitive enteropathy.

Group II, claim(s) 17-25, drawn to a comparative protein binding assay for differential diagnosis of autoimmune diseases.

The inventions listed as groups I-II do not relate to a single general inventive Concept under PCT Rule 13.1 because, under PCT Rule 13.2 they lack the same or corresponding special technical features for the following reasons. Group I is a method for differential diagnosis of autoimmune diseases of the GSE-type or associated with gluten sensitive enteropathy whereas Group II is a comparative protein binding assay. Group I requires testing the sample for antibodies against human tissue transglutaminase and at least on other transglutaminase molecule and Group II does not require this limitation. Further, Group II requires at least two different transglutaminase antigens and Group I does not require this limitation. Therefore, there

are two different processes. Under rule 13 Applicant is entitled to one product, one method of making and one method of using.

There are no special technical features tying the methods together.

A telephone call was made to Elizabeth Hanley, Attorney on 04/15/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
